## RELAXING FOOT LOTION

### With St John's Wort and Juniper
### Icea EcoBioCosmestics Certification

Greenatural Foot Lotion, with its fresh and relaxing texture, deeply nourishes feet and legs without leaving any greasy residue. This product also fights against sweat. Enriched with Tea Tree Essential Oil and Juniper Extract, with antiseptic properties, helps to fight against the spreading of bacteria and fungi responsible for bad odor. With the help of Greenatural's foot lotion your skin will feel soft and soothed.

## INGREDIENTS

**Ingredients:** Aqua (Water), Prunus Amygdalus Dulcis (Sweet Almond) Oil*, Glycerin, Cetearyl Alcohol, Sodium Stearoyl Lactylate, Glyceryl Stearate, Menthol, Gluconolactone, Butyrospermum Parkii (Shea) Butter*, Mentha Piperita (Peppermint) Oil*, Citrus Aurantium Bergamia (Bergamot) Fruit Oil*, Tocopherol, Chondrus Crispus Powder, Xanthan Gum, Ascorbic Acid, Retinyl Acetate, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Aesculus Hippocastanum (Horse Chestnut) Seed Extract*, Hypericum Perforatum Extract*, Juniperus Communis (Juniper) Fruit Extract*, Melissa Officinalis Leaf Extract*, Rosmarinus Officinalis (Rosemary) Extract*, Vitis Vinifera (Grape) Leaf Extract*, Glucose, Sodium Benzoate, Sodium Dehydroacetate, Potassium Sorbate, Sodium Hydroxide, D-Limonene, Benzyl Alcohol, Linalool.

***From Organic Agriculture**

## USE

Apply in the morning and/or night and gently massage, after warming up the lotion in hands. Massage in circular motions feet and ankles, all the way up to the calf, to sooth heavy and tired legs. To optimize the efficiency of the lotion, apply before going to bed and wear a pair of socks during the night. In the morning, your feet and legs should feel nourished and rested.

## ICEA ECOBIO COSMETICS CERTIFICATION

The products of **Eco Bio Cosmetics and Natural Cosmetics** ICEA guarantee :

- **Formulations** consisting of ingredients of natural origin, selected on the basis of criteria of environmental sustainability and healthiness.
- In the case of Eco Bio Cosmetics products, surfactants, functional principles and plant extracts **from organic**

**farming and certified** based on the main international regulations.

- **Mandatory tests** on the finished product to prevent unwanted effects.
- **Truthful labels and claims** supported by a reliable scientific test or bibliography.
- **An independent control and certification system** with international accreditations, which makes the rules, the lists of companies and certified products (including the ingredients) public and responds to questions asked by consumers.

## DESCRIPTIVE SHEET FOR MAIN ACTIVE COMPONENTS*

| Ingredients | Properties |
|---|---|
| **Sweet Almond Oil Prunus Amygdalus Dulcis (Sweet Almond) Oil** | Sweet Almond oil is a cosmetic product with sweetening, nourishing and soothing properties, that maintains the skin soft. Excellent for delicate skin of adults and children. It is extracted through a cold pressing process of Prunus Amygdalus Dulcis Almonds, without the use of chemical solvents. |
| **Menthol** | Menthol is an organic compound obtained from the oils of peppermint. It is often used in cosmetics, it has refreshing properties. |
| **Organic Shea Butter (Butyrospermum Parkii (Shea) Butter)** | Shea Butter is a fat extracted from the nut of the African tree Vitellaria paradoxa. It has many properties, rich in vitamins and antioxidant substances. Shea butter is often used as a base for cosmetic and medical ointments, to protect the skin from the sun, or to repair and nourish the skin. |
| **Peppermint Essential Oil (Mentha Piperita (Peppermint) Oil)** | Peppermint essential oil is extracted through a steam distillation process. It is known for its anti-bacterial and refreshing properties. It has a very fresh, strong, sweet and bitter pungent smell. |
| **Bergamot Essential Oil (Citrus Aurantium Bergamia (Bergamot) Fruit Oil)** | Bergamot essential oil is extracted from the rind of the mature Citrus Bergamia fruit, through a cold pressing process. This oil has a vibrantly fresh, citrusy and sour smell. |
| **Chondrus Crispus Powder** | Chondrus Crispus is a species of the red algae that grows around the coast of Europe and North America. It is used to make lotions more fluid and lighter. This algae is rich in minerals and helps to keep the skin hydrated. |
| **Tea Tree Essential Oil (Melaleuca Alternifolia (Tea Tree) Leaf Oil)** | Tea Tree essential oil is extracted from the leaf of the Melaleuca Alternifolia tree, through a distillation process. This oil has a fresh, strong and balsamic smell. This oil has antibacterial and antiviral properties. |
| **Aesculus Hippocastanum (Horse Chestnut) Seed Extract)** | Aesculus hippocastanum extract is often used as an ingredient in cosmetic products. This plant has a particular molecule named aescin, that helps to maintain a healthy blood circulation and strengthens capillaries. |
| **St John's Wort Extract (Hypericum Perforatum** | Hypericum perforatum or St John's Wort is often used in herbal medicine. It has healthing and soothing properties, able to stimulate and rigenerate new cellulare production. |
