### AIAB CERTIFICATION

The products of **Eco Bio Cosmetics and Natural Cosmetics AIAB** guarantee :

- **Formulations** consisting of ingredients of natural origin, selected on the basis of criteria of environmental sustainability and healthiness.
- In the case of Eco Bio Cosmetics products, surfactants, functional principles and plant extracts **from organic farming and certified** based on the main international regulations.
- **Mandatory tests** on the finished product to prevent unwanted effects.
- **Truthful labels and claims** supported by a reliable scientific test or bibliography.
- **An independent control and certification system** with international accreditations, which makes the rules, the lists of companies and certified products (including the ingredients) public and responds to questions asked by consumers.

## DESCRIPTIVE SHEET FOR MAIN ACTIVE COMPONENTS\*

Ingredients	Properties
<b>Coconut Oil</b> (Cocos Nucifera Oil)	Coconut oil is rich in saturated fats and can be an effective moisturizer.
<b>Potassium Alum</b>	Potassium Alum helps to reduce body odor in case of excessive sweat, for its astringent action to the skin. This mineral's osmotic power also helps to eliminate bacterial cells.
<b>Litsea Essential Oil</b> (Litsea Cubeba Fruit Oil)	Litsea Essential Oil also known as Angel's oil or smile oil, is extracted from an evergreen tree that is native to south-east Asia. It is often used in aromatherapy to increase focus.
<b>Calendula Extract</b> (Calendula Officinalis Flower Extract)	Calendula Extract has soothing and healing properties and for this reason it is excellent for sensitive skin and it is particularly used in children's products. It is a true balm for the skin.
<b>Chamomile Extract</b> (Chamomilla Recutita Flower Extract)	Chamomile extract contains many anti-oxidants, which may help reduce signs of aging by protecting the skin from free radical damage. It is also known for its soothing and calming effect on the skin.

- Warning: the descriptions listed above are to be referred to the active properties reported in literature. This regulation relates only to cosmetic products and not to medical products. Cosmetic products may include any emulsion, lotion or substance intended for external application (skin, hair, nails, lips and external intimate hygiene) or for care of the teeth and the mouth, whose exclusive purpose is to clean, perfume, change the aspect, protect, maintain their well status or eliminate body odor. (Regulation (CE) n. 1223/2009).
